Getting Started with Systematic Reviews
A Workshop Handout – Spring 2017
Paul Fehrmann, University Libraries
Kent State University

Workshop Web Site: libguides.library.kent.edu/systematicreviews

Today’s session:
One Model of the Systematic Review Process

Figure 1 Existing methods for systematic reviews follow these steps with some variations. Not all systematic reviews follow all steps. This process typically takes between 12 and 24 months. Adapted from the Cochrane [10] and CREBP [11] Manuals for systematic reviews. SR systematic review, SD standard deviation.
