Getting Started with Systematic Reviews
A Workshop Handout – Spring 2018
Paul Fehrmann, University Libraries - Kent State University

Workshop Web Site: https://libguides.library.kent.edu/SRgettingstarted

Today’s session - Notes
One Model of the Systematic Review Process

Figure 1: Existing methods for systematic reviews follow these steps with some variations. Not all systematic reviews follow all steps. This process typically takes between 12 and 24 months. Adapted from the Cochrane [10] and CREP [11] Manuals for systematic reviews. SR systematic review, SD standard deviation.
